Smart Features:

- Hourglass-shaped wide (325×180/155mm) rain shower head is designed to soak the whole shoulder line at once and ultra-thin, rain shower head prevents limestone problems and the shower head won't drip water after use.
- The ecological rain head showers use only 9-10 litres per minute and also work with a low water pressure. The rain head shower wets immediately due to the 1.5 mm water column.
- Telescopic height adjustment (44 cm) allows installation to spaces of different heights, even those with lowered ceilings. The height of the rain shower head is adjustable from 94 cm to 138 cm, which means that **PACIFICA** is well suited to spaces of varying heights. Even the spaces with lowered ceilings can be equipped with a little bit of luxury now.
- Moveable wall bracket enables mounting even on existing screw holes. Replace an old shower and keep your ceramic tiles clean of extra holes.
- Handheld shower turns 360 degrees: the hose doesn't get twisted.
